

## Note on Texts

Since this is a multi-author publication, we have sometimes used different versions of the same text. We list all versions that we have used in the bibliography and refer to the version used in each case in our in-text citations. For example, we use two versions of the *Four Tantras* (Yutok Yönten Gönpo 1982, 2006) and sometimes also refer to its more concise form used for memorization (Yutok Yönten Gönpo 1999). When we make more general reference to chapters in the *Four Tantras*, the tantra number and chapter number(s) are indicated (e.g., III, 90–91).
