Uganda (Sep 10)

Protocol on China sending a medical team to Uganda.

XNA, Sep 10, 1982

U.S.A. (Sep 20)

Document for further cooperation in hydroelectric power and related water resource management for the period 1982-84. The document is the annex two to the U.S.-China hydropower protocol which was signed in August 1979 after the normalization of relations between the two countries. Annex one to the protocol was signed in march 1980, which had been carried out over the last two years. Besides continuation of implementation of uncompleted activities under annex one, annex two focuses on cooperative activities of science and technology on one of the major hydropower projects in China-tianshengqiao, part of the larger Hongshui river basin development plan. Some other annex two activities include continued cooperative studies of other potential Chinese hydropower projects, such as Longtan, Ertan and the three gorges of the Yangzi river. U.S. private firms will be involved in these activities under annex two.

XNA, Sep 20, 1982

Sri Lanka (Sep 21)

Five-year trade agreement which will come into operation on 1st January 1983. The agreement provides for cash trading in a wide range of goods in place of the traditional rubber for rice barter deal. Under this agreement both countries expect the overall trade to rise sharply from the present 1,000 million rupees to 1,600 million rupees during 1983. Sri Lanka and China will give each other most favoured nation treatment. Both countries now envisage a joint committee to review implementation of the agreement and to promote bilateral trade.

Colombo Radio, Sep 22, 1982; cit. SWB/W 1204

Japan (Sep 23)

Summary of the talks on the fourth meeting on the China-Japan long-term trade agreement. According to the text of the summary, both sides agreed that China will export eight to 8.6 million tons of crude oil to Japan annually between 1983 and 1985, and it will export 4.5 million tons of coal to Japan in 1983, six million tons in 1984, and seven to eight million tons in 1985 according to the needs and possibilities of the two sides. They also agreed that as new progress is made in China's economic readjustment and foreign trade, China will make every possible effort to import technology and equipment from Japan.

XNA, Sep 23, 1982

Japan (Sep 27)

Exchange of notes on a Japanese government loan to the Chinese government in 1982. According to them, Japan will provide a loan of 65,000 yen.

XNA, Sep 27, 1982

This loan will be used to assist four projects involving harbours and railways. The projects, which include construction of Shijiusuo harbour, expansion of Qinhuangdao harbour and expansion of railways between Yanzhou and Shijiusuo and between Peking and Qinhuangdao, have been underway since 1979 with Japanese economic cooperation. The 65,000 million yen, agreed upon between the two countries in working-level negotiations at the end of August, will be the amount Japan will provide during the current fiscal year ending next March. This amount will raise the sum of money Japan offered to China in connection with the four projects to about 230,000 million yen. The money will be made available from the governmental Overseas Economic Co-operation Fund at an annual interest rate of 3% with a 30-year repayment period, including a 10-year grace period.
