List of Mantras in Kapiṣṭhala-Kaṭha-Saṃhitā

— Another Addition to *A Vedic Concordance* —

Makoto FUSHIMI

As mentioned in the articles on the mantras in Baudhāyana Śrautasūtra¹ and in Hiranyakeśin Śrautasūtra,² more than a full century ago, in the preface to his monumental work, *A Vedic Concordance*, BLOOMFIELD emphasized the importance of further collection and transaction of the data from not yet published texts.³

Recently the *Concordance* was updated by FRANCESCHINI with the data from various texts.⁴

Here I add the data from the Kapiṣṭhala-Kaṭha-Saṃhitā,⁵ which is not yet included in the *Concordance*, with the numbering of the second edition which is widely used now. As entities this collection includes ṛc, yajus, praīsa, pāda of śloka as in *A Vedic Concordance*.

I hope, like that of Baudhāyana Śrautasūtra, this list, together with that of Hiranyakeśi Śrautasūtra, will be integrated in a future update of the *Concordance*.
